## Extra performance

# NEW

## The Only Armor That Protects You Against an Electronic Discharge Weapon

### ThorShield™ Electro-Muscular Disruption (EMD) Resistant Technology

Law enforcement experts report an increase in the rate that officers are being shot with their own weapons, especially less-lethal energy arms. These authorities are recommending the use of apparel/devices that are resistant to weapons used in such attacks. ThorShield™ is a durable, lightweight, conductive material that effectively protects the wearer when hit in the vest with less-lethal energy weapons, such as TASER® devices and other electro-muscular disruption weapons.

ThorShield™ absorbs electrical charges and prevents incapacitation

### Vest & Carrier Colors

**New!** Meets new standards. New ballistics provide superior performance. All models now come with Thorshield™ lining that protects against EDW's. Other features include:

- Patented Self Suspending Ballistic System™
- Soft inner surface resists the growth of odor causing mold and mildew
- Front and back trauma insert pockets accommodate 5 x 8 or 8 x 10 trauma insert plate for additional protection
- 8-point adjustability for optimum comfort
- Internal 4" cummerbund stabilizes rear ballistic panel and helps prevent riding up when sitting
- Engineered with Outlast® Adaptive Comfort® Technology to help regulate body temperature

Made in USA.

Complies with NIJ 0101.06 certification.

For carrier, hand wash, hang to dry. Made in USA.

Colors: navy and black, see left
